ORDERING INFORMATION

Series	Operation	Light Source	LED Colour	Face#	Mounting Type	Special Wording	Options
MC-SD	*Blank (AC only)	L (LED)	B (Blue)	1 (Single)	W (Wall - no canopy)	SW-SD (6ft apart)	AN (Clear anodized finish)
			G (Green)	2 (Double)	C (Ceiling)	SW-FC (Face covering)	BA (Brushed aluminum finish)
					E (End)		TP (Tamper proof screw)
							PK12 (12" pendant kit)
							**120VDC (Specify 2 or 4 wires)
							***F (Fibre only)

NOTES: *120/347VAC, 120VAC line cord is standard, back entry. DC input available. Please consult factory **With 120VAC only ***Please see fibre only ordering chart

Example: MC-SD-L-B-1-W-SW-SD

Description: Micra social-distancing sign, AC only, LED, blue colour, single face, wall mount, special wording - 6ft apart

SOCIAL DISTANCING SIGNS

ADVANCED DESIGN

The **MICRA SD** series of extruded aluminum signs feature an ultra thin “fusion” one-piece body. The design incorporates cutting edge technology, producing one of the slimmest aluminum egress signs ever manufactured. The one-piece body is extremely rigid and holds all of the LED circuitry in precision formed mounting channels. The LED illumination provided by this design evenly illuminates the sign face; while the ultra thin design “traps” light, further enhancing output. The canopy has been custom designed to complement the ultra thin appearance of the **MICRA SD**, as well as provide a stable and rigid mounting platform. A wide variety of finishes are available, ensuring that the **MICRA SD** can be suited to your installation.

INSTALLATION

The **MICRA SD** is suitable for ceiling, wall and end mounting. Suitable for indoor installations.

MECHANICAL SPECIFICATIONS

The **MICRA SD** “fusion” body is constructed from a single piece of extruded aluminum. All mounting channels are extruded with the housing at the time of manufacture, adding to the rigidity of the sign. The housing end plates are machined from solid aluminum and secured to the housing with two [2] recessed screws. The **MICRA SD** canopy is made from 16 gauge steel and is attached to the housing at the factory to provide the most secure mounting possible.
