DIMENSIONS (MM, IN.)

Series	A	B	C
QR-SD	197mm	330mm	51mm
	7 3/4"	13"	2"

EXTRUDED DESIGN

The clean lines and thin design of the **QUADRA SD** series provides it with a modern and attractive appearance. The extruded aluminum frame contains no external holes or slots adding to the clean look while eliminating unwanted light leaks. The extruded aluminum forms a rigid and durable frame that can be securely mounted in any application. The pictogram and backplates are mounted into the frame using a pin and channel system that permits simple and speedy removal during installation. This design also eliminates the need for any visible screws or fasteners.

Faceplate slides up and outwards for quick and easy installation.

STANDARD PICTOGRAMS

MECHANICAL SPECIFICATIONS

The **QUADRA SD** is constructed of sturdy extruded aluminum. Universal mounting pattern and key hole slots are stamped on the backplate. Surface mount conduit entry knockouts are also provided. The **QUADRA SD** is supplied standard with an attractive and durable white, baked powder coat finish. The pictogram is held securely in place with a pin and channel system that allows it to slide in the frame providing complete access to the interior of the sign. No visible screws, nuts or fasteners are used that would detract from the clean, modern design.

INSTALLATION

The **QUADRA SD** is suitable for surface ceiling, wall and end mounting. Suitable for indoor installations.
