Tempesta™

# Intelligence with LED Technology

T-Bar ceiling mount

THE TEMPESTA™ boasts unique Italian design, reliability and increased fixture to fixture performance. The use of LED or fluorescent technology allows for an improved spread of light, fewer units to install and maintain lower energy consumption and creates a safer environment during a power failure. Designed for wall or ceiling installations, the Tempesta™ is suitable for any application.

## Tempesta™ Family:

Tempesta™ LED Battery Unit (EM)

Tempesta™ LED Remote

Tempesta™ LED Normally-On (AC)

Tempesta™ LED ACEM

Tempesta™ Fluorescent Battery Unit

Tempesta™ Fluorescent Remote

## Ceiling Fixture Spacing

## APPLICATIONS

Tempesta™ is suitable for use in a variety of applications including:

- |             |                     |
|-------------|---------------------|
| Schools     | Libraries           |
| Banks       | Lobbies             |
| Residences  | Refrigeration       |
| Offices     | Food Prep Areas     |
| Pools       | Bottling Facilities |
| Retail      | Hospitals           |
| Restaurants | Canopies            |

Surface ceiling mount

## CASE STUDY: Library

*Kitchener Public Library: surface wall mount*

### EXPANSION & RENOVATION

LGA Architectural Partners, The Walter Fedy Partnership

**LIBRARY APPLICATIONS** *2015 IES Illumination Awards of Merit Recipient List.* Hao Sun, P.Eng., LC, IESNA of The Walter Fedy Partnership was chosen as the lighting designer on the project. In 2015, he was honoured as the recipient of the IES Illumination Award of Merit for the Kitchener Public Library design.

In the heart of Kitchener, ON is the central branch of the Kitchener Public Library. In 2010, the ground was broken on a 3.5 year, \$40,000,000 renovation and addition. This transformative project created a new public meeting place and an opportunity to learn and share with the community. In addition to the library, the building also includes a theatre, art gallery, computer lab, study areas and meeting spaces.

In the front of the library is the main reading room. The two-story, open concept space, has a new ceiling that is lit to look like stars in the sky. In a room this size, emergency

lighting can be a challenge. In a space this beautiful and modern, aesthetics play a critical role in all components installed. To meet the emergency lighting requirements and not detract from the overall design, Hao Sun chose the Beghelli Tempesta™.

The Tempesta™ is a LED or fluorescent emergency light that defies the look of traditional emergency lighting. It can be surface or recessed mounted and its low profile and curved silhouette blends right into the surroundings. Providing over 1300 lumens, the Tempesta™ had the performance to light the area from the ceiling of the second story.

In addition to the Tempesta™, which was installed throughout, the Kitchener Public Library also has Stella combos, Curva exits, Nova battery units and LR plastic remote heads.

### Mounting Options:

Surface Ceiling

Surface Wall

Recessed Ceiling

Recessed Wall

T-bar Ceiling

## Product Overview

## Features & Benefits

CSA 22.2 No. 141-10  
Conforms to ANSI/NSF Std. No. 2

### FEATURES

Wet Location / IP65

Up to 1300 lumens in Emergency Mode

Auto-test self-diagnostics

100% Polycarbonate

Samsung LED Technology

Sanitation Listed

Vandal Resistant

### BENEFITS

- Suitable for both indoor and outdoor applications
- Protection against environments containing dust and water

- Greater fixture to fixture spacing on centre
- Up to 60' spacing
- Cost savings with less units required

- Intelligent communication with continuous status updates

- Corrosion, flame and vandal resistant

- Reduced maintenance with 100,000 hour lamp life
- High lumen output with lower wattage consumption

- Suitable for use in any food preparation environment that requires a splash zone rating of NSF/ANSI Standard 2

- Suitable for a variety of applications
- Maintains fixture integrity in high-abuse areas
