

BS105

First 5 ft. Fixture to match or surpass
other 8 ft. Vapor Tight Fixtures

The Beghelli alternative to the 8' vapor tight. The Illumina BS105 is the first 5' luminaire to match or surpass other 8' units performance. Including all of the Illumina series features such as the 94% reflectancy and a 3-piece design that securely snaps together without the need for any tools making the BS105 one of the easiest fixtures to install. The 100% polycarbonate construction ensures durability in corrosive environments. Making use of T5HO lamp technology, the BS105 provides 12,300 initial lumens when configured with two 80W T5 HO lamps.

ORDERING INFORMATION

Series	Model	Operation	Lamps	Input	Options
BS105	5(5ft)	HT (AC only)	G (2x32 T8) H (2x80 T5HO)	120V 277V 347V	FP (Fuse protection) PS (Pendant suspension kit) RSxx (Ridged stem specify length in inches.) CH (Chain hanger kit) SW (Suspension wire)

Constructed from 100% polycarbonate, the BS105 is corrosion, flame and vandal resistant. The diffuser uses C.L.E. technology (complete light emission) which allows for greater light output and efficiency. The dual parabolic reflector uses a vacuum metalization process which results in a mirror - like finish. UV stabilized for added protection from yellowing effects. Secure, flush mounted clips properly hold the diffuser to the housing. All BS105 mounting hardware is stainless steel and included.

Wattage	A	B	C
2X32W	62 1/4"	6 1/2"	4 1/4"
2X80W	62 1/4"	6 1/2"	4 1/4"

The BS105 uses one(1) or two(2) high power factor and high-efficiency integral electronic instant start ballast(s). Rapid start ballasts are available upon request. Internal liquid silicone gasketing protects the BS105 from moisture, resulting in a wet location/IP66 rating.

Candela values are approximate and should be used for general estimating purposes only.

Lamp: (2) 80WT5 HO
 Initial lamp lumens: 6150 at 25° C
 94% Reflectancy
 Luminaire efficiency: 65%
 CIE Type: Direct
